NORDYNE CELEBRATES 20 YEARS WITH HARDI

Receives honor for continuous support.

St. Louis, November 10, 2008 — NORDYNE has long been a supporter of the Heating, Air Conditioning & Refrigeration Distributors International (HARDI), a trade organization dedicated to advancing the science of wholesale distribution in the HVACR industry. That support was recognized at the October 27, 2008, HARDI conference in Phoenix, Az., when the organization thanked NORDYNE for 20 continuous years of support for its Conference Booth Program.

Joseph Brandt, vice president of sales for the western region of the US and Canada received the award on behalf of NORDYNE.

“At NORDYNE, we rely on independent distribution,” says Brandt. “Organizations such as HARDI help us connect with our customers and better understand their needs – important for any manufacturer, but especially for one who works with independent distributors. We’re proud to be recognized for our long-lasting dedication to HARDI.”

A trusted name in the industry, NORDYNE designs and manufactures heating and cooling products for premium brands such as Maytag, Frigidaire, Westinghouse, Tappan and NuTone. The company’s 24.5-SEER air conditioner with iQ Drive® received the prestigious 2008 AHR Expo Product of the Year award. NORDYNE is headquartered in O’Fallon, Mo., with manufacturing plants located in the central United States. For more information about NORDYNE and its product offerings, please visit www.nordyne.com.
