NORDYNE NAMES MORRISON PRODUCTS 2008 SUPPLIER OF THE YEAR

Outstanding support despite economic downturn.

St. Louis, July 7, 2009 — Outstanding field support, high product quality and responsive customer service are all reasons that NORDYNE named Morrison Products its 2008 Supplier of the Year.

Morrison Products provides NORDYNE with blower wheels and other parts for residential and light commercial furnaces, air conditioners and heat pumps. The two companies have a 25-year partnership that has weathered much industry change.

“Our industry has gone through quite a slowdown,” says Dave LaGrand, president and CEO of NORDYNE. “Despite the economic pressure, Morrison has excelled in their ability to maintain consistency.”

Morrison Products employees were appreciative of the award, especially in light of the current state of the industry. During the award ceremony, Mike Chapman, manager of the Morrison Products Canton, Ga. plant, emphasized the morale-boosting effect of the award. “When a customer comes in to say they appreciate them, it makes everybody feel more comfortable.”

NORDYNE selected Morrison Products based on several criteria, including customer service, product quality, tech and sales support and field issues. This is the first year that NORDYNE has given this award.

About NORDYNE.

A trusted name in the industry, NORDYNE has been designing and manufacturing reliable heating and cooling products for 90 years. The company focuses on creating genuine value for its customers through a unique combination of innovation, product performance and responsive support. NORDYNE builds solid residential systems for high-end brands including Maytag, Broan, Frigidaire, NuTone, Tappan and Westinghouse. The company's 24.5-SEER iQ Drive® air conditioner received the prestigious 2008 AHR Expo Product of the Year award. NORDYNE is headquartered in O'Fallon, Mo., with manufacturing plants located in the central United States. For more information about NORDYNE and its product offerings, please visit www.nordyne.com.
