**NORDYNE HELPS HOMEOWNERS FIGURE OUT REFRIGERANT  
WITH NEW DEALER LITERATURE**

*All the details about the refrigerant changeover are in this consumer-friendly guide.*

**St. Louis, September 10, 2008** — To a lot of homeowners, choosing a new outdoor unit can be overwhelming as they try to understand efficiency ratings, compressor options and coil technology. Add in refrigerant choices, and it's enough to make heads spin.

That's why NORDYNE has added a refrigerant guide to its dealer literature library. Titled, "Refrigerant: What You Need to Know," this simple, two-sided sheet walks homeowners through the refrigerant changeover and the benefits of choosing R-410A equipment.

The guide is part of NORDYNE's ecoLogic program, the green initiative that promotes the company's highest efficiency equipment.

To order the new literature piece, dealers should contact their distributor representatives. To learn more about ecoLogic, please visit [www.ecoLogicHVAC.com](http://www.ecoLogicHVAC.com).

**About NORDYNE.**

A trusted name in the industry, NORDYNE designs and manufactures heating and cooling products for premium brands such as Maytag, Frigidaire, Westinghouse, Tappan and NuTone. The company's 23-SEER air conditioner with iQ Drive<sup>®</sup> received the prestigious 2008 AHR Expo Product of the Year award. NORDYNE is headquartered in O'Fallon, Mo., with manufacturing plants located in the central United States. For more information about NORDYNE and its product offerings, please visit [www.nordyne.com](http://www.nordyne.com).
