**NUTONE MAKES IT EASY TO BE GREEN
WITH THE “GO GREEN, SAVE GREEN” WINTER REBATE**

St. Louis, August 28, 2008 — NuTone dealers will have another selling tool this fall and winter. NuTone has just announced the “Go Green, Save Green” rebate program on select ecoLogic products. The rebate is valid on furnaces and ecoLogic units purchased between November 1, 2008, and January 31, 2009.

The rebate structure encourages homeowners to replace their furnace and outdoor unit at the same time. Homeowners can receive from \$400 to \$1,200 back when they purchase both a new two-stage or modulating furnace and a matched ecoLogic air conditioner or heat pump.

For homeowners who want to only replace their furnaces, participating NuTone dealers can offer rebates ranging from \$150 to \$450. Rebates up to \$800 are also available on select ecoLogic home comfort systems, including split systems and packaged units.

NuTone Heating and Cooling Products are only available at Noland and select Winair and Winnelson locations. To sign up for the “Go Green, Save Green” rebate program, NuTone dealers should contact their distributors. To see which NuTone units carry the green ecoLogic seal, please visit www.nutonehvac.com.

NORDYNE has been designing and manufacturing heating and cooling products for more than 80 years. A trusted name in the industry, it focuses on using proven technology to build reliable residential NuTone products. The company’s 23-SEER air conditioner with iQ Drive® received the prestigious 2008 AHR Expo Product of the Year award. NORDYNE is headquartered in O’Fallon, Mo., with manufacturing plants located in the central United States. For more information about NORDYNE and its product offerings, please visit www.nordyne.com.
