**NEW WESTINGHOUSE iQ DRIVE HEAT PUMP
LEADS THE INDUSTRY IN EFFICIENCY, INNOVATION**

New iQ Drive® heat pump achieves up to 22 SEER.

St. Louis, May 28, 2009 — Dealers and distributors can be sure they're selling the industry's most efficient, quietest air-source heat pump with the new Westinghouse iQ Drive heat pump. It's rated up to 22 SEER, 10 HSPF and 14.6 EER.

The Westinghouse iQ Drive heat pump is the next evolution of the 24.5 SEER iQ Drive air conditioner and uses the same inverter-driven rotary technology. The unit can modulate anywhere from 40 to 118 percent of capacity, instantly adjusting to exactly offset the demands on the home.

"There's no other heat pump like the iQ Drive," says Matt Lattanzi, iQ Drive product manager for NORDYNE. "The Westinghouse iQ Drive heat pump runs almost constantly at a low level instead of cycling on and off. This makes a huge difference in comfort and sound levels, especially at night."

The iQ Drive is also the industry's quietest heat pump, operating as low as 59 decibels. Its near-continuous operation also means it provides outstanding dehumidification.

"The homeowner can set their desired humidity level, and the iQ Drive heat pump will maintain it within 5 percent of set point," adds Lattanzi.

When paired with the Westinghouse iQ Drive fully modulating gas furnace rated at 97% AFUE and higher, the iQ Drive heat pump also creates the industry's most efficient dual-fuel system.

For more information on the new Westinghouse iQ Drive heat pump, dealers and distributors should visit www.westinghousevac.com or www.iqdrive.net.

About NORDYNE.

NORDYNE has been designing and manufacturing heating and cooling products for more than 80 years. A trusted name in the industry, it focuses on using proven technology

to build reliable residential Westinghouse products. The company's 24.5-SEER air conditioner with iQ Drive[®] received the prestigious 2008 AHR Expo Product of the Year award. NORDYNE is headquartered in O'Fallon, Mo., with manufacturing plants located in the central United States. For more information about NORDYNE and its product offerings, please visit www.nordyne.com.
