WESTINGHOUSE BRINGS BACK A \$1,300 REBATE WITH THE “GO GREEN, SAVE GREEN” WINTER PROMOTION

St. Louis, September 3, 2009 — Westinghouse heating and cooling announces its fall “Go Green, Save Green” incentive program on select Westinghouse ecoLogic products, including rebates up to \$1,300 or special low-interest financing for 36 months. The promotion runs from September 1, 2009, through November 30, 2009.

Westinghouse dealers can expect a positive consumer response to the program based on the brand’s spring promotion. The “Go Green, Save Green” 2009 spring rebate program experienced a 60 percent increase in consumer participation compared to the 2008 program – a positive sign for the industry. Many of the homeowners combined the manufacturer’s rebate with the federal tax credit, giving them an incredible deal on a highly efficient, highly innovative Westinghouse system.

Westinghouse high-efficiency units carry a 10-year limited parts warranty and a 10-year Quality Pledge to replace the entire unit if the compressor or heat exchanger fails.

The “Go Green, Save Green” incentive program is only available through participating Westinghouse dealers and distributors. To see which Westinghouse units carry the green ecoLogic seal, please visit www.westinghousehvac.com.

About NORDYNE.

A trusted name in the industry, NORDYNE has been designing and manufacturing reliable heating and cooling products for 90 years.
